

School Closings Due to Weather

In the event that the school must be closed or start late due to weather, there are several options to get that information

1. Receive a phone call from the school about closings through School Reach, our automated phone messaging system.
****Unless you have contacted the office to use a different number, the home phone listed on *FastDirect* is the number called. If you would like to make a change, please contact Mrs. Anderson****
2. Log on to www.emergencyclosings.com. Our facility name is "St. Paul's Lutheran School" and our facility location is "Bourbonnais." You may also sign up for personalized e-mail notification at this web site.
3. Announcements will be broadcast on WVLI 95.1 FM and WIVR 101.47 FM radio stations.
4. The information from Emergency Closings will also be carried on Channels 2, 5, 7, WGN and FOX along with WGN 720 AM and WBBM Newsradio 780 AM. These outlets will have lengthy lists.

Please do not call teachers or the school. The information will be shared with you through our automated phone messaging system first., then at Emergency Closings and finally the radio stations will be called. Generally, we will follow the lead of the Bourbonnais School District, but you should always check to make sure.
